

A Home of Our Own

habitatfindlay.org

We're making a SMART MOVE for Findlay/Hancock Habitat. At 1200 Commerce Parkway, Habitat for Humanity will for the first time in its 22-year history – have a place it can truly call "HOME." We are excited to lead this historic "A HOME OF OUR OWN" capital campaign to take what is a vacant office building and turn it into a premier affordable home-building, educational training facility that houses one of the state's best ReStores.

Findlay Habitat's new home will provide significant benefits beyond the organization itself, strengthening Habitat to serve families and address the affordable housing deficiency in our community. It's transformational! It is a momentous time for Findlay Habitat for Humanity and we hope you will join us in supporting this growth opportunity for the organization. Together we can help more working families realize the dream of homeownership. Together we will build a brighter future.
